A pièce de résistance to enhance any dining room, the WaveWoo Table is a popular conversation-starter that always attracts attention. The contours of this dramatic design evoke the natural rhythms of wind currents and ocean waves while establishing a permanence that renders any interior sacrosanct.

Shaped by expert artisans, the curved organic form of the 100% controlled wood base rises and falls, suggesting delicate and fluctuating movement. A choice of marvel gold porcelain or tinted glass tabletop completes the piece. With its subtle yet vigorous character, this skilled handling of sustainable, long-lasting materials conjures the continuous yet ephemeral natural cycles of the Earth.
